FINAL REPORT

Research Grant #:

Year Final Report Submitted

I. PROJECT SUMMARY

Please give an overview of project goals and findings, in no more than 250 words.

II. RESEARCH QUESTIONS

- *Please list core research questions addressed by the proposal in bulleted format.*
-

III. DIFFERENCES BETWEEN PROPOSED WORK AND EXECUTED PROJECT

Sometimes aspects of the proposed work needs to change due to unforeseen circumstances or new information. If this occurred, please describe any differences between what was proposed and what was done.

IV. INTRODUCTION/BACKGROUND

Please use this introduction section to describe the purpose and need of the project, including what is known and where the data gaps are.

V. METHODS

VI. RESULTS

Photos and figures are encouraged. Please embed them in the text rather than attaching them at the end.

VII. DISCUSSION

Describe the results in context of the other literature.

VIII. RELEVANCE TO CONSERVATION

Specifically discuss how the study’s findings could be applied to the conservation and management of redwoods and giant sequoia habitat.

IX. CONTRIBUTIONS TO DIVERSITY, EQUITY, AND INCLUSION

X. *Describe any actions that have been taken to contribute to diversity, equity, inclusion, justice, and/or belonging in redwood research.*

XI. FUTURE WORK

What new research questions were raised by this research?

XII. DELIVERABLES

Please list all deliverables proposed for the grant award and how/when they were completed. Please also attach any project photos or videos you would like to share.

Deliverable	Planned Completion Date

XIII. BUDGET

Confirm the funds have been spent in full, or if not, how much will be reimbursed to the League. Describe if/how this project and the SRL funding helped support securing additional funds and support for this project.

What	Proposed	Actual
Total		
Total to be reimbursed to the League
